PRIYA DHARSHINE S

Trichy, Tamil Nadu | 8248296568 | priyadharshine82006@gmail.com GitHub | LinkedIn

CAREER OBJECTIVE

High-achieving Computer Science Engineering student (**8.76 CGPA**) with practical experience in **Full Stack Development** and **UI/UX Design**. Proven ability to engineer responsive web applications using **Python, JavaScript, and REST APIs**. Expert in debugging complex application logic and optimizing code performance gained during a professional internship at **Error Makes Clever**. Committed to building scalable, user-centric software solutions by bridging technical backend logic with intuitive frontend design.

INTERNSHIP EXPERIENCE

Full Stack Development Intern | *Error Makes Clever*

- Engineered and enhanced Python-based backend modules, ensuring seamless integration with frontend components.
- Optimized existing codebase to improve application reliability and execution speed.
- Collaborated on the Software Development Lifecycle (SDLC), utilizing Git for version control and team-based code reviews.
- Resolved 20+ logic-based bugs during the testing phase, ensuring high-quality functional deployments.

TECHNICAL SKILLS

- **Languages:** Python (Advanced), JavaScript (ES6+), Java (Basics), SQL (MySQL)
- **Frontend:** HTML5, CSS3, Responsive Web Design, UI/UX Prototyping
- **Tools & Platforms:** Git, GitHub, VS Code, Figma
- **Automation:** Java Automation (Scripting, Task Automation, API Automation Basics)
- **Core Competencies:** Data Structures & Algorithms (DSA), DBMS, OOP, Operating Systems, SDLC

PROJECTS

Movie Recommendation Web App | JavaScript, REST API

- Developed a dynamic movie discovery platform using external APIs to render real-time cinematic data.
- Implemented an efficient search algorithm to filter and display results based on user queries.

Swiggy Food Delivery App – UI/UX Case Study | Figma

- Architected a comprehensive mobile UI, creating user flows, wireframes, and high-fidelity interactive prototypes.
- Applied accessibility standards and mobile-first design principles to improve user navigation and engagement.

Task Management System | JavaScript, LocalStorage

- Designed a full CRUD (Create, Read, Update, Delete) application for personal productivity.
- Integrated browser LocalStorage to maintain data persistence, ensuring zero data loss on page refreshes.

EDUCATION

B.E. in Computer Science & Engineering | *Care College of Engineering* | 2023 – 2027

- **CGPA: 8.76 / 10.0** (Current)

CERTIFICATIONS

- **Computer Networks & Internet Protocols** – NPTEL (**Elite Silver**)
- **Data Structures & Algorithms using Java** – NPTEL
- **UI/UX Design Specialist** – Novitech Pvt Ltd
- **Database Management Systems** – NPTEL
